# DIGITAL DENTISTRY:

## FUTURE OR FAD?

**Thursday 6th and Friday 7th June 2024**

Guildhall, Bath, Somerset BA1 5AW

[www.bsrd.org.uk](http://www.bsrd.org.uk)

# WELCOME BACK

Dear Colleagues,

I am delighted to welcome you to the highly anticipated Digital Dentistry Conference here at Bath Spa. Over the next two days, we have gathered renowned speakers from around the globe, including esteemed restorative dentistry specialists, dentists, and technicians. This conference promises to be an unparalleled opportunity for knowledge exchange and networking in the rapidly evolving field of digital dentistry. Together, we will explore cutting-edge techniques and innovations that will shape the future of our profession. Thank you for joining us on this exciting journey.

Matthew Jerreat, President, BSRD

# SPEAKERS

**Leanne Branton**

*The Advantage of a Digital Practice and the Green Agenda*

Dr. Leanne Branton is a general practitioner based in Edinburgh where she owns a multidisciplinary specialist practice. She has been placing implants for over a decade and was awarded the Diploma in Implant Dentistry from the Royal College of Surgeons in London.

Passionate about obtaining beautiful results for her patients in the aesthetic zone – she continues to get excellent results using digital technology.

**Ashley Byrne**

*Team and Technology*

Ashley is the director of Byrnes Dental Laboratory, a leader in modern dental technology. He qualified with a degree in Dental Technology in 2000 and started his own lab with his Dad in 2006. As early pioneers in the world of scanning and CAD-CAM, the lab is now one of Europe's most respected digital labs. Ashley lectures on digital dentistry, and building a highly motivated team, and has spoken in countries as far as the USA, India and South Africa. Their training facility is one of the first of its kind, working to take school leavers through their technical education and to become world leading dental technicians. In his spare time Ashley is a keen cook and has a smallholding for chickens and goats.

**Steve Campbell**

*Cutting Edge Digital Dentistry*

Steve Campbell RDT is a dedicated and highly experienced dental technician, bringing over 30 years of invaluable expertise to transforming dental technology. As a GDC registered dental technician, he has a deep-rooted passion for the transformative impact dental care provides patients.

Steve's career has been marked by collaborative efforts with some of the most esteemed dental surgeons in the UK, where he consistently delivers innovative solutions for all facets of restorative dentistry. His focus lies in dental implants and cutting-edge digital and CAD/CAM workflows, showcasing his commitment to staying at the forefront of dental technology. In 2015, Steve's passion for dental technology seamlessly merged with his fascination for cutting-edge advancements. This convergence led to the establishment of Nexus Dental Laboratories, a fully digital dental laboratory he now conducts alongside his dedicated team.

Since its inception, Nexus Dental has been a hub of opportunities and challenges that keep Steve actively engaged in pushing the boundaries of dental technology.

He is currently serving as the President of the Dental Laboratories Association.

**Marcus Dagnelid**

*Digital Simplicity / Growing your dental practice – digital tools for success*

Dr. Marcus Dagnelid is a Board Certified Prosthodontist. Originating from Gothenburg in Sweden, the birthplace of dental implants, Dr. Dagnelid literally started in the footsteps of Prof. Per Ingvar Brånemark and has worked together with several implant companies on product development. He has been an international lecturer for more than 18 years in different topics such as guided surgery, loading concepts, digital implant workflows and practice management. He has built and managed large specialist centers, and continuously speaks on how to create a true ethos and a successful company culture.

Dr Dagnelid also serves as a clinical and scientific advisor for several companies within the dental industry. This year will be his 9th year as a moderator for the ISQ Symposium held both during EAO congresses and online.

**Matthew Jerreat**

*President*

Matthew Jerreat is a distinguished Restorative Consultant renowned for his exceptional contributions to the field of dentistry. With extensive experience spanning over two decades, he has established himself as a thought leader in restorative dentistry. Matthew's innovative approach to patient care, coupled with his expertise in advanced techniques and technologies, has garnered him international recognition. He is a sought-after speaker, educator, and author, sharing his insights with fellow professionals globally. Through his commitment to excellence and patient-centric care, Matthew Jerreat continues to shape the landscape of restorative dentistry, inspiring professionals to achieve new heights of clinical proficiency.

# SPEAKERS

## Ernest Lucas

### *Tooth Auto transplantation: New trends and protocols*

Private practice in Implant Dentistry and Oral Surgery (London and Northern Ireland, United Kingdom)

- Assistant Lecturer at the Oral and Maxillofacial Surgery Department. Universitat Internacional de Catalunya
- International speaker and lecturer
- Scientific publications in the field of tooth autotransplantation and dental implants
- Dentistry Degree. UIC University (Barcelona, Spain)
- PhD. UIC University (Barcelona, Spain)
- International Master in Oral Surgery. UIC University (Barcelona, Spain)
- Master's Degree in Clinical Research. UIC University (Barcelona, Spain)

## Mark Ludlow

### *Integrating Digital Dentistry 360 / The Fully Digital Implant Patient: The Easy; The Difficult*

Dr. Mark Ludlow is the Section Head of Implant Dentistry, Digital Dentistry, and Removable Prosthodontics at the University of Utah School of Dentistry. He completed his DMD dental training at the University of Connecticut and received his MS in prosthodontics from the University of North Carolina. As a practicing and teaching prosthodontist, Dr. Ludlow's passion is in the development and integration of digital technology in the practice of everyday implant and restorative dentistry.

## Alex Pollard

### *Using Digital Technology to Improve Cancer Outcomes*

After graduation, Alex undertook a number of hospital jobs, as well as several years in NHS general practice. He then undertook specialty training in an NHS funded training program in the South West, UK. Alex is now undertaking further specialty training and is currently nearing the end of his training to become a Consultant and Specialist in Restorative Dentistry. Alex has experience working with Head and Neck Cancer (HANC) patients using both digital and traditional workflows and is currently a council member for the BSRD and BSP (British Society of Periodontology and Implant Dentistry).

## Kia Renevandez

### *From Analogue to Digital - the journey so far*

Kia qualified from The Royal London Hospital in 1993. Following a brief period in general practice he enrolled on the Periodontology Masters program at Guy's Hospital. He obtained his MSc in 1997 and was awarded the Diploma of Membership in Restorative Dentistry of the Royal College of Surgeons of England in 2000.

He has been on the General Dental Council Specialist Register in Periodontics since 2000.

## Angharad Truman

### *Setting up a Virtual Hypodontia Clinic*

Angharad splits her time working as an NHS Consultant in Restorative Dentistry and lead of the Hypodontia service for Somerset NHS Foundation Trust; and in academia as an Honorary Consultant in Restorative Dentistry and Module Leader for the Restorative Dental Science MSc with Plymouth University. She is a GDC registered specialist in both Restorative Dentistry and Prosthodontics.

She qualified in dentistry at Cardiff University in 2011. She undertook training in Restorative Dentistry, Dental Public Health and Maxillofacial Surgery prior to completing her specialist training in Restorative Dentistry.

Angharad has successfully completed a Certificate in Medical Education, Masters in Restorative Dentistry, Membership of Prosthodontics Examinations and Intercollegiate Specialty Fellowship Examination in Restorative Dentistry (RCSEd).

Her specialist interests include multidisciplinary care of patients with orthodontic-restorative needs and prosthodontics. Angharad has a passion for Restorative Dentistry and education and is the Honorary Secretary of the British Society for Restorative Dentistry.

## Lola Welch

### *Guide to Guided Surgery – using your tech to achieve excellence*

Lola Welch Dtg is a Senior Prosthetic Technician at Ceramic Designs Laboratory in Hove. She graduated from Medical University of Warsaw in 2004 and moved to London the same year where she spent 12 years working as an in house technician at Dawood and Tanner referral practice. She has now 20 years of experience working with implant supported restorations starting from implant planning, through immediate load conversion to final permanent restorations. She is an All On X expert, lecturer, educator, published author and KOL for major implant and dental supply companies. In September 2023 Lola was voted for the Laboratory's Leading 20, a list that recognises the skill, influence and passion of the UK dental laboratory industry.
