Joint Restorative Dentistry Conference 2026

Dear Colleagues,

We are delighted to welcome you to the Joint Restorative Dentistry Conference (JRDC) hosted by the BSRD, RD-UK and SRRDG in Leeds. This conference brings together experts, researchers and practitioners to explore the latest innovations, techniques and best practices in the field of restorative dentistry, prosthodontics, periodontology and endodontics.

Whether you are joining us to gain new insights, connect with other professionals, we hope these 2 days provide you with valuable knowledge and inspiration for your practice.

We look forward to an enriching experience together.

Christopher Tredwin
BSRD President

Matthew Jerreat
RD-UK Chair

Speakers

Jason Wong MBE

Jason was appointed as Chief Dental Officer England in May 2024 and before that as interim Chief Dental Officer in July 2023. Jason joined the Office of the Chief Dental Officer as Deputy Chief Dental Officer in July 2020.

Awarded an MBE for services to dentistry and oral health in the new year's honours list 2020, Jason has previously chaired local dental networks across parts of the Midlands and the East of England and was also secretary of Lincolnshire Local Dental committee for 16 years. His role as Chief Dental Officer now sees him working in collaboration with local and regional teams to deliver improved outcomes for patients, while also championing the role of dentists and dentistry within the health system.

The Office of the Chief Dental Officer England represents the head of the dental profession in England, providing system wide professional and clinical leadership, by setting the strategic vision for England's oral health.

Jason is currently a practicing general dental practitioner and partner at the Maltings Dental Practice in Grantham, clinical ambassador for the mouth cancer foundation and is a well-known speaker nationally on clinical and non-clinical topics.

Claire Forbes-Haley

After qualifying at Bristol Dental Hospital, Claire worked in general practice in Somerset. She then spent two years in hospital specialties including oral surgery, oral medicine, and paediatrics. From 2010-2014 she trained in the Hospital as a specialist in Restorative Dentistry. Since 2013 she has worked in specialist practice in Exmouth at Fairfield House. In 2015 she became Consultant in Restorative Dentistry at Bristol NHS Foundation Trust, working there for 5 years as Lead for managing Dental Developmental Deformities and Abnormalities in the Southwest. She is actively involved in regional training/teaching for training Consultants and Postgraduates. She moved to Plymouth in 2020 to restart the Restorative department at University Hospitals Plymouth and is now Clinical Lead for Restorative Dentistry. She has worked for NHS England as the Southwest managed clinical network chair for Restorative Dentistry representing all restorative departments in the Southwest. She works with RD-UK a national society for Restorative Consultants as the MCN CEN chair. She has been offered the role of Deputy Chief dental officer for the Southwest and has been working in this role since June 2025 while waiting for its official start in 2026.

She is an active member on national dental committees supported by the Royal College of Surgeons of which she is a member. She is a member of the multi-disciplinary teams for; cleft, orthodontics, paediatrics, Head and Neck cancer and trauma. She has a variety of interests within the restorative field encompassing: dental implants, bespoke dentures, traumatic dental injury, and gum disease management. She helps to provide plans for patient's dental management that can be provided by general dental practitioners.

Since 2015 she has been on the medical board for the Society of Ectodermal Dysplasia and from 2024 she supports the Royal Osteoporosis Society as part of their College of Experts.

Ashley Byrne

Ashley is the owner of Byrnes Dental Laboratory, a leader in modern dental technology. He qualified with a degree in Dental Technology in 2000 and started his own lab with his Dad in 2006. As early pioneers in the world of scanning and CAD-CAM, the lab has gone from strength to strength and now even has its own training facility.

Ashley lectures on digital dentistry, and building a highly motivated team, and has spoken in countries as far as the USA, India and South Africa. Their training facility is one of the first of its kind, working to take school leavers through their technical education and to become world leading dental technicians.

In his spare time Ashley is a keen cook and has a smallholding for chickens and goats.

Cristian Peron

Dr. Cristian Peron has completed his DDS degree at the University of Turin, Italy, 2002; he has a Master Degree in Periodontology and in Oral Implantology at the University of Milan, has completed a two years of Advanced Course in Clinical Periodontology University of Berne School of Dental Medicine. In 2015 he has completed an International Achievement in Implantology and Oral Rehabilitation NYU University and becoming tutor of the Italian Association of the NYU University. He has published several articles and scientific posters in national and international journals; is a Lecturer in National and International Conferences and Courses; is a Dentist in Private Practice specialized in Periodontics and Implant Dentistry in Turin, Italy.

Raj Rattan MBE

Raj Rattan is a general dental practitioner who owned and operated a small group practice for over 30 years, building a diverse portfolio career alongside his clinical work.

He became involved in postgraduate education initially as a Programme Director and later as Strategic Associate Dean for Foundation Training in London. He has provided consultancy services to both public and private sector organisations, including the NHS, Denplan, dental corporates, and the Department of Health, where he previously served as a Policy Adviser.

Raj is the author and co-author of several textbooks and numerous articles, and he has lectured extensively across the UK and internationally.

He worked as a part-time dento-legal consultant at Dental Protection for more than 20 years before taking up the role of Dental Director in 2016. He has recently been appointed Global Adviser to the Medical Protection Society, where he created and developed the Safter Practice Framework for the adoption and integration of artificial intelligence into clinical practice.

Outside dentistry, his interests include writing fiction, philosophy, motor sport, and magic. He is a member of The Magic Circle and was awarded the Hoffman Prize in 2011 for his work on exposure.

Shakeel Shahdad

Shakeel Shahdad is a Consultant and Honorary Clinical Professor in Oral Rehabilitation & Implantology at The Royal London Dental Hospital, and Barts & The London School of Medicine and Dentistry at Queen Mary University of London.

He is the Clinical Lead for Restorative Dentistry, Lead for postgraduate implant training and Chairman of ITI Scholarship Centre at QMUL.

He is a specialist in Restorative Dentistry, Periodontics, Prosthodontics and Endodontics. In 2017, he was conferred Fellowship of the Faculty of Dental Trainers (FFDTEd) by The Royal College of Surgeons of Edinburgh.

He is a Fellow of the International Team for Implantology. He is also the Past Chairman of the Advisory Board in Implant Dentistry for the Royal College of Surgeons of Edinburgh and the ITI UK & Ireland Section. He is an examiner for the Royal College of Surgeons of Edinburgh and examines for speciality examinations in Restorative Dentistry, Prosthodontics, Periodontology, and Membership in Implant Dentistry Exam.

Apart from the specialist restorative treatment, his areas of particular interest include aesthetic implant dentistry, digital workflow, and management of complex restorative cases including functional and aesthetic rehabilitation of patients with hypodontia and toothwear. Shakeel specialises in treating patients requiring complex and advanced restorative treatment including surgical placement and restoration with dental implants.

He is active in clinical research and has secured over £3m research grants. He is a co-author of a textbook in periodontology and implant dentistry, besides publishing in peer-reviewed journals.

He also runs a multi-specialist referral practice in the West End of London

Professor Shannon Patel

Shanon divides his time between specialist practice and teaching at King's College London Dental Institute. His main research interests are CBCT, root resorption and treatment outcomes. He has supervised 70+ Masters and PhD students.

Shanon's background as a clinical academic has resulted in him publishing over 120 papers. He is recognized internationally as a leading authority on 3D (CBCT) imaging and root resorption and was lead author of 5 European Society of Endodontology position statements (CBCT 2014, 2019 and External Cervical Resorption 2018, Root resorption 2023, Cracked teeth 2025).

Shanon has been a keynote speaker at over 150 international meetings spanning 5 continents and has co-authored 6 textbooks which have been translated into 5 different languages.

David East

David East is Director of NEC Rego, an intelligent referral optimisation platform used across the NHS to guide patients to the right care, first time. He focuses on improving referral quality and routing through intelligent clinical pathways and streamlined digital workflows, reducing rejections and administrative burden for clinicians and services. He designs digital processes that enable efficient triage, minimise rejected or incomplete referrals, and lighten administrative workload across specialties including dentistry and wider outpatient services.

Professor Nikos Donos

Professor Nikos Donos is the Director of Research, Professor & Chair of Periodontology and Implant Dentistry, at the Centre for Oral Clinical Research (COCR), Institute of Dentistry, Queen Mary University of London (QMUL).

In 2024, Prof. Donos was awarded the prestigious International Association for Dental Research (IADR) Distinguished Scientist in Periodontal Disease Award, the European Federation of Periodontology (EFP) Distinguished Scientist Award and the FDS RCSEd ad Hominem. In 2011, he was presented with the IADR- Periodontology Group award in Periodontal Regenerative Medicine and in 2019 the American Academy of Periodontology (AAP) Clinical Research Award for his contribution as co-author. In 2004, Professor Donos was awarded the European Association of Osseointegration (EAO)- Basic Science Research Award.

In 2009, Prof. Donos has been presented with the title of Honorary Professor at the Faculty of Dentistry in Hong Kong, in 2012 the title of Adjunct Professor at the Dental School-Griffith University in Australia, in 2015 the title of Honorary Professor at UCL-Eastman Dental Institute and in 2019 the title of Honorary Professor, School of Dentistry, University of Queensland, Australia.

Professor Donos is Past President of the British Society of Periodontology & Implant Dentistry (BSP) (2020), the Past Academic Representative of the Committee of the Association of Dental Implantology (ADI)(UK) and is a board member of the Osteology Foundation (OF)-Switzerland where he also is the Chair of the Science Committee (for OF). Furthermore, Professor Donos is the Lead of the European Federation of Periodontology (EFP) Education Committee (PEC).

Prof. Donos is the Editor in Chief for Journal of Clinical Periodontology, the Associate Editor for Periodontology 2000, a topic editor (2022) for Frontiers in Bioengineering and Biotechnology and is/ has been involved as editorial board member in international peer-reviewed journals in the field of Periodontology and Implant Dentistry.

Prof. Donos has published more than 290 peer reviewed publications, is the editor of 5 textbooks and author/co-author of 15 book chapters in the field of Periodontology and Implant Dentistry.

Prof Donos has significant clinical experience in providing advanced treatment modalities to patients suffering from severe periodontal disease.
